

PERMIT AND APPLICATION EXTENSION REQUEST FORM

ABOUT EXTENSION REQUESTS

This form allows you to request the following types of extensions:

- **Application Extension:** An extension issued before a permit is issued.
- **Permit Extension:** An extension to an issued permit.

APPLICATION EXTENSION

Applications for which no permit is issued within 18 months following the date of application shall expire. A permit application extension allows the application to stay active after the initial expiration date. For more information, please see [SMC 16.20.225](#).

Applications may be canceled for inactivity if an applicant fails to respond to the City's request for revisions, corrections, actions, or additional information within 90 days of the date of the request.

PERMIT EXTENSION

An existing building permit may only be renewed one time, for a fee of one-half the original permit fee.

Extended permits shall expire within three (3) years from the original permit's date of issuance. To qualify for a permit extension, you must:

- Request to extend the permit within 30 calendar days following the original permit expiration date.
- Provide a construction and management plan, documenting the work can be completed within the extended timeframe.
- Not make any changes to the original approved plans (excluding formerly approved and documented field changes).
- Pay an extension fee of one-half the original permit fee.

Submittal Instructions

Complete & save this form before uploading it to the "File Upload" section of the associated permit at MyBuildingPermit.com.
