

City of Sammamish

Issaquah-Fall City Road Improvements Project

Phase I Design: 242nd Avenue SE to Klahanie Drive SE

Detour Route and Construction Planning Workshop

Thursday, October 26, 2017 5:30 – 8 p.m.
Sammamish City Hall

Meeting Agenda

5:30 p.m. – Welcome, sign in, find seats

5:40 p.m. – Presentation and Q&A

6:15 p.m. – Workshop

- Identify areas of concern during construction
- Brainstorm solutions to manage traffic during construction

7:40 p.m. – Group report out

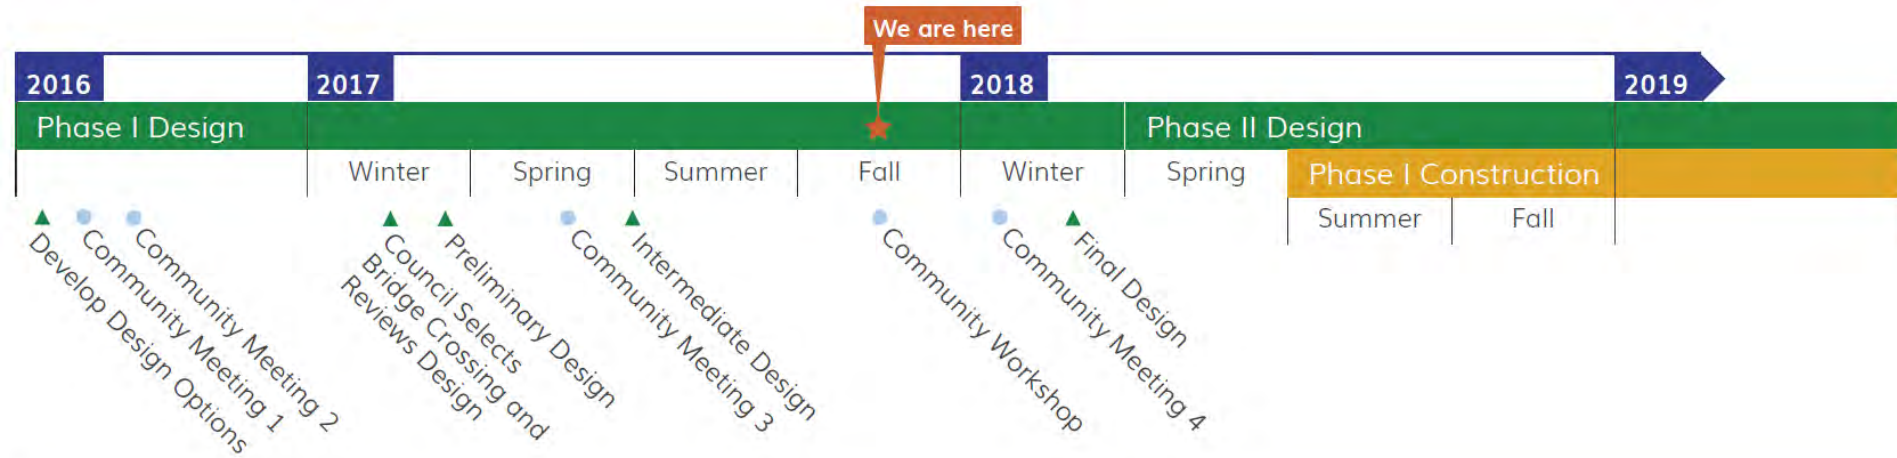

8:00 p.m. – Event ends

October 26, 2017

Project Timeline

Phase II Construction:
Anticipated 2021-2022

Community outreach and City Council updates will be ongoing throughout the duration of the project.

October 26, 2017

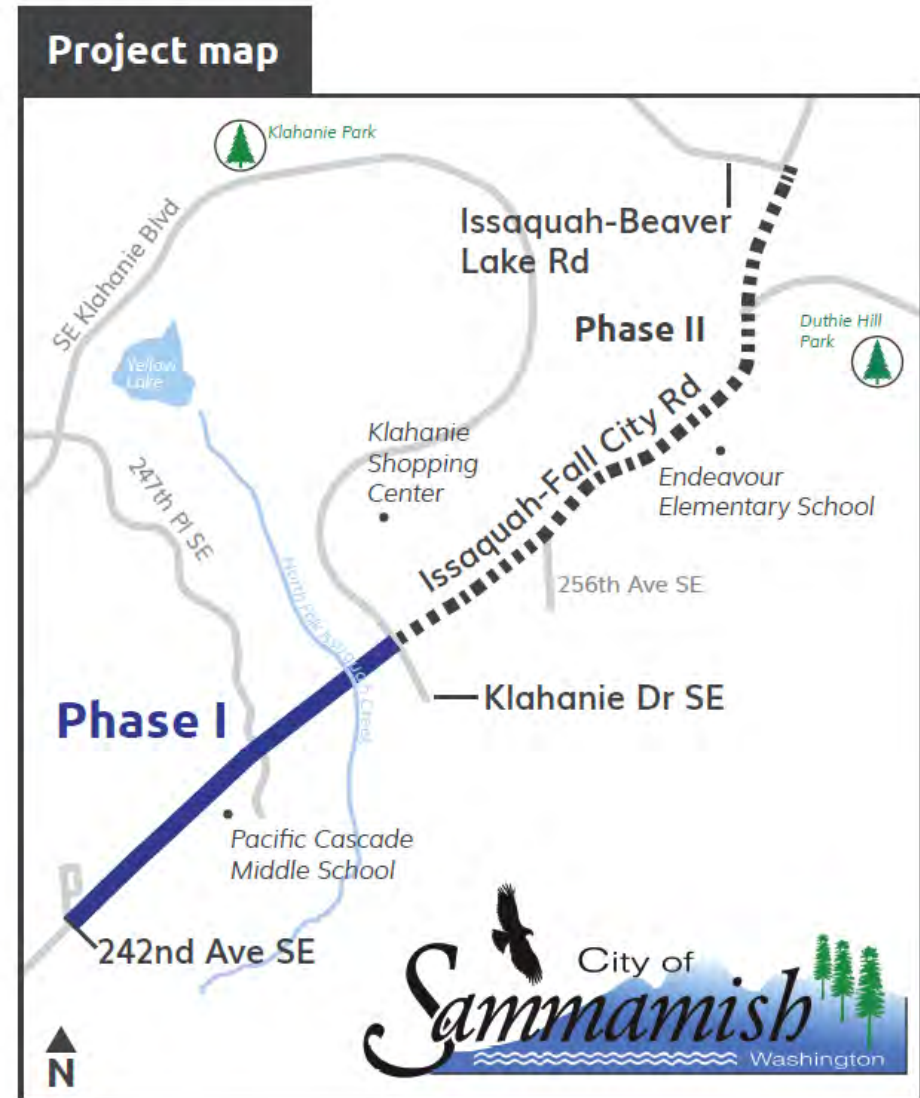

Project Overview

Phase I Design: 242nd Avenue SE to Klahanie Drive SE

- Improve safety
- Improve operations
- Increase capacity
- Protect environmentally sensitive areas

October 26, 2017

Working With the Community

- Community meetings
- Conversations with residents, businesses and organizations
- Transportation Committee and City Council briefings
- Neighborhood events
- Comments via web, email and phone

October 26, 2017

What We Heard in June

- Concern about neighborhood streets being used as detour routes
- Ideas for traffic revisions on surrounding roads
- Concern over traffic queues during school pick-up and drop-off times
- Need for community notifications prior to and during construction

October 26, 2017

Traffic Data Overview

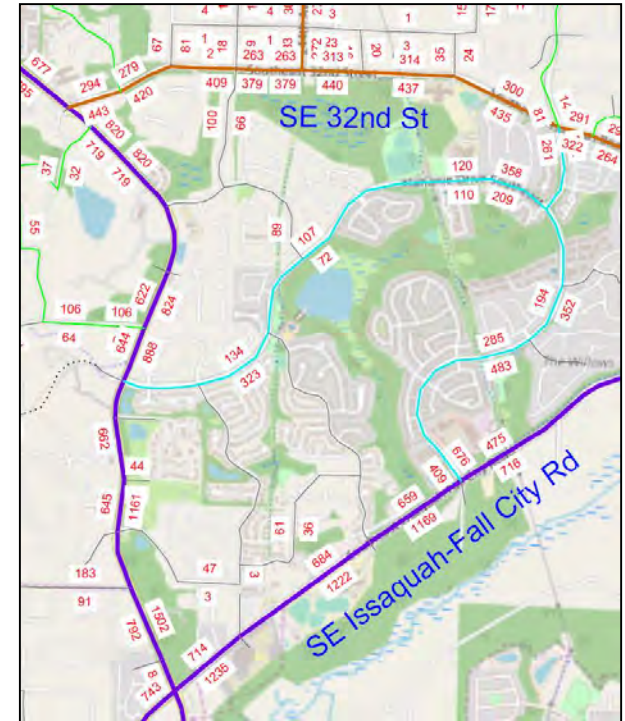

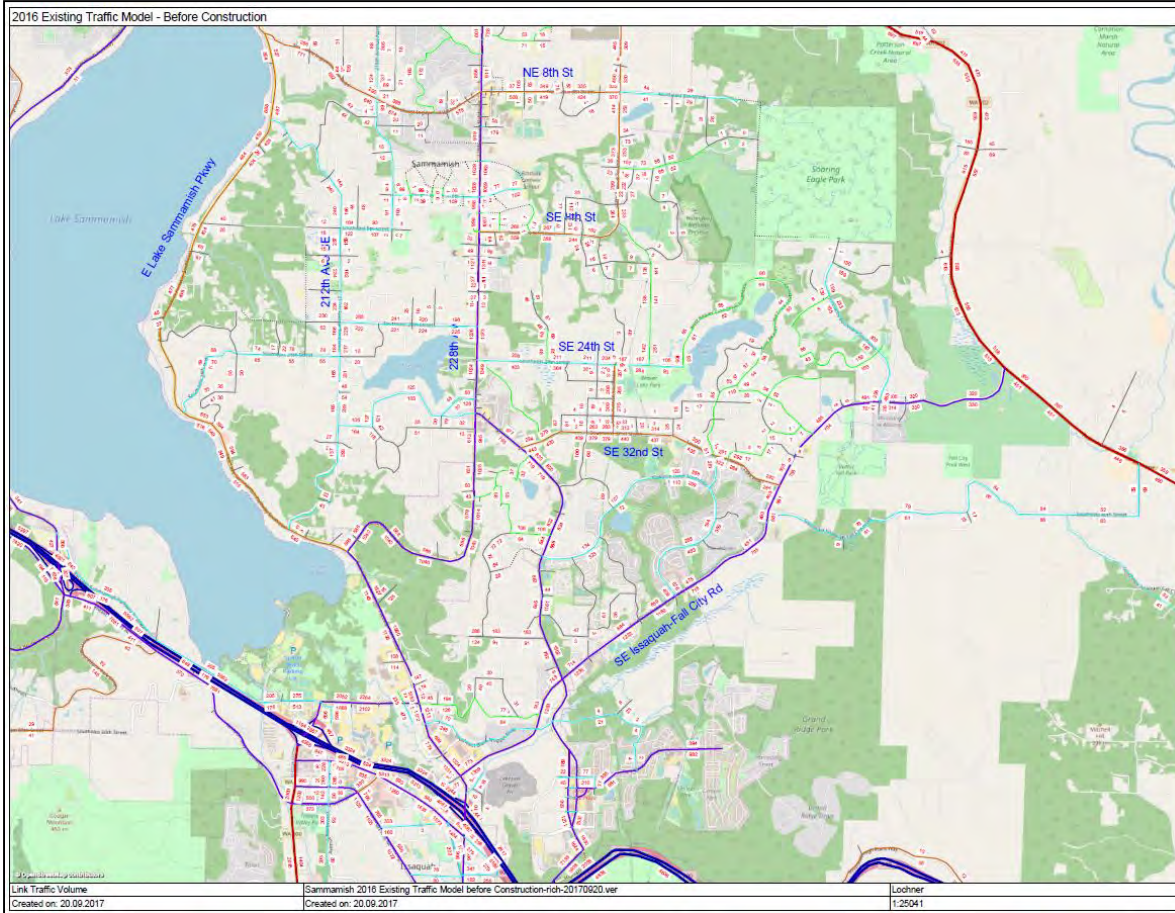

- The City of Sammamish gathered data in 2016 and 2017 during peak afternoon travel times
 - Peak morning travel times were also gathered and looked at in 2017
- Developed traffic model for current peak afternoon conditions
- Developed traffic model during peak afternoon construction conditions

October 26, 2017

Current Conditions

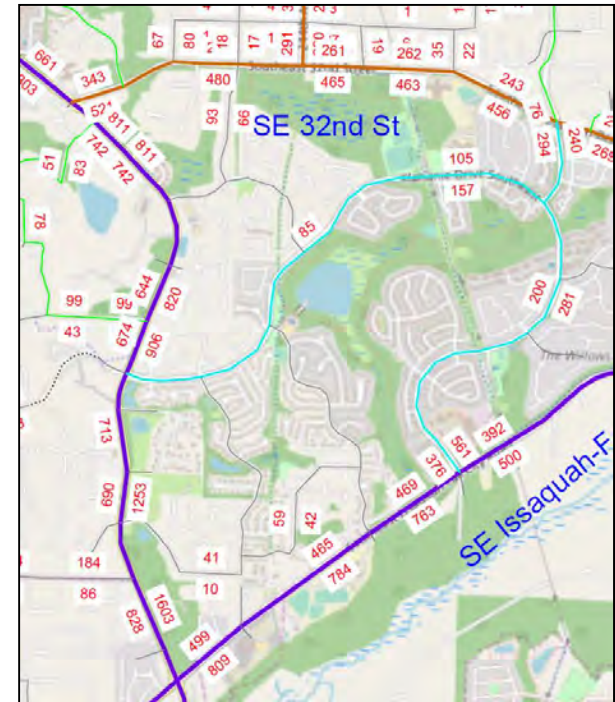

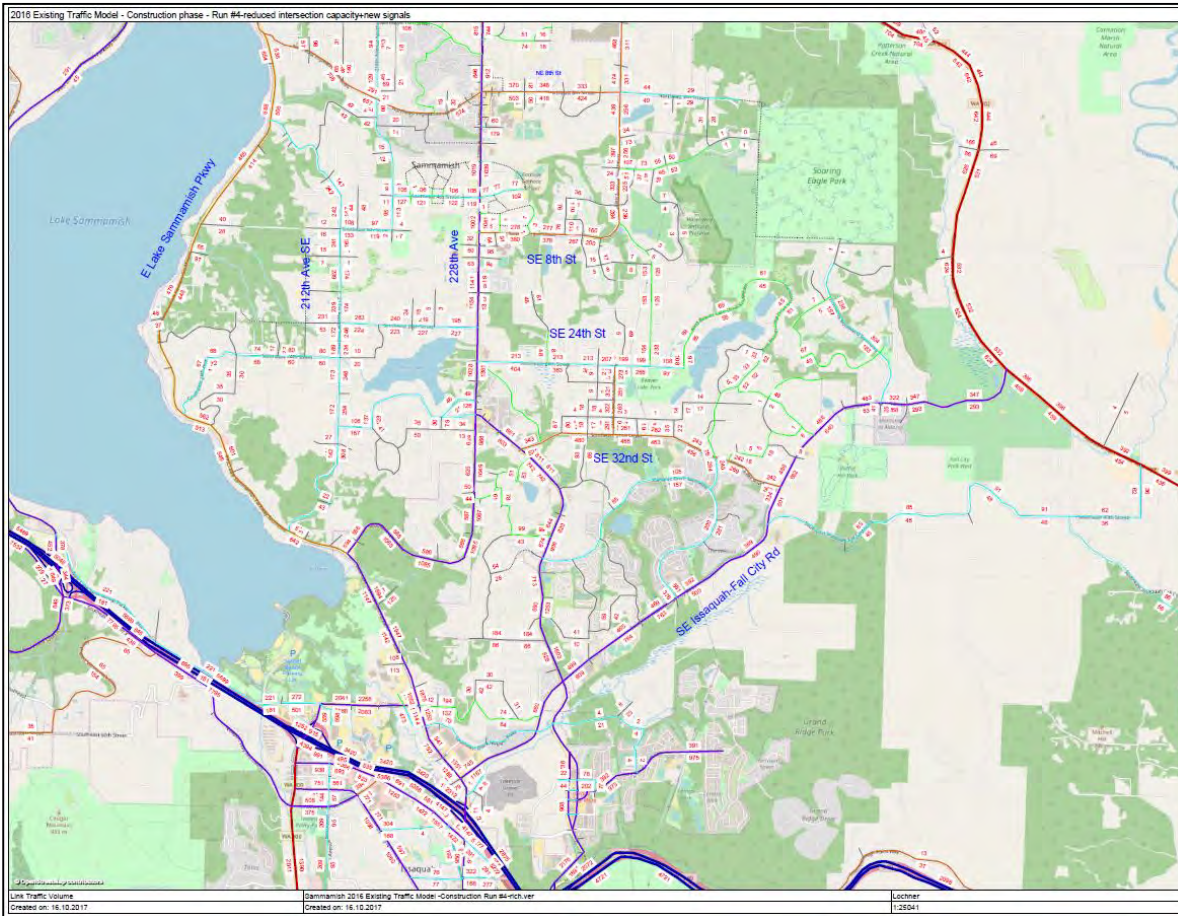

October 26, 2017

Traffic During Construction

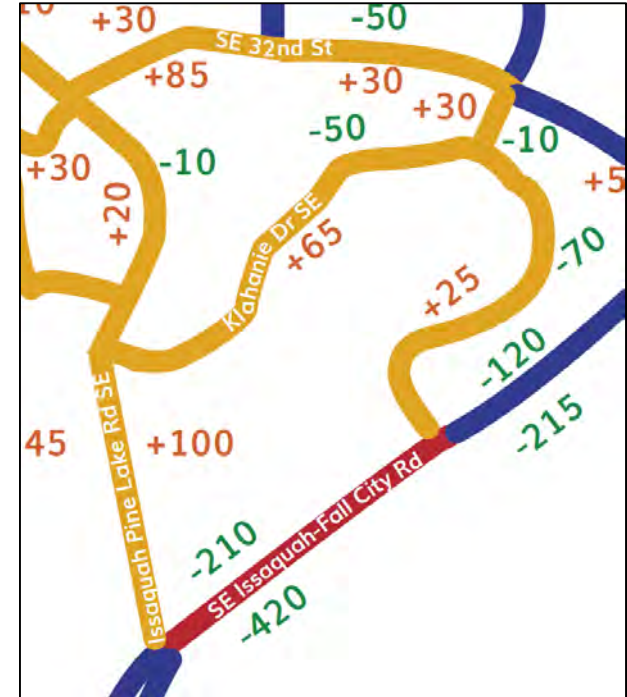

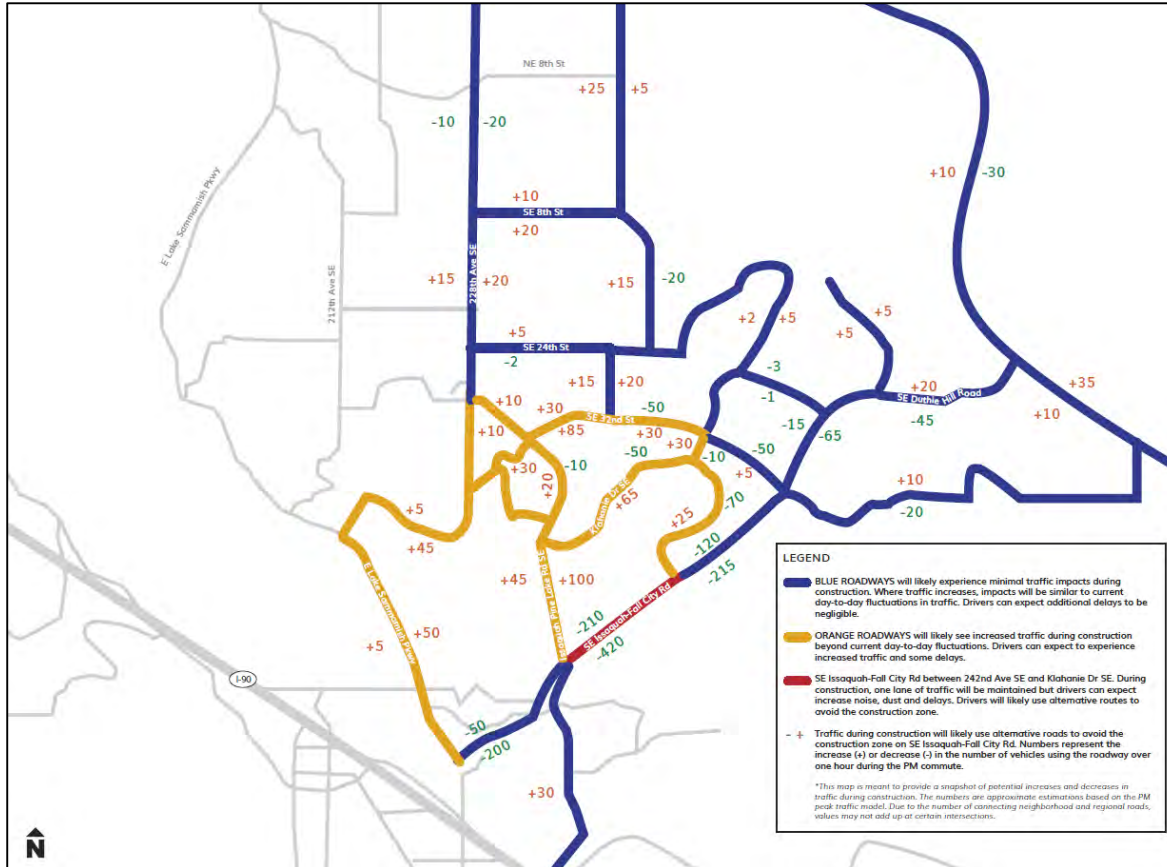

October 26, 2017

Traffic During Construction

October 26, 2017

What to Expect During Construction

- One travel lane maintained in each direction
- Increased travel times
- Noise and vibrations
- Dust
- Bicycle and pedestrian access maintained
- Ongoing notification

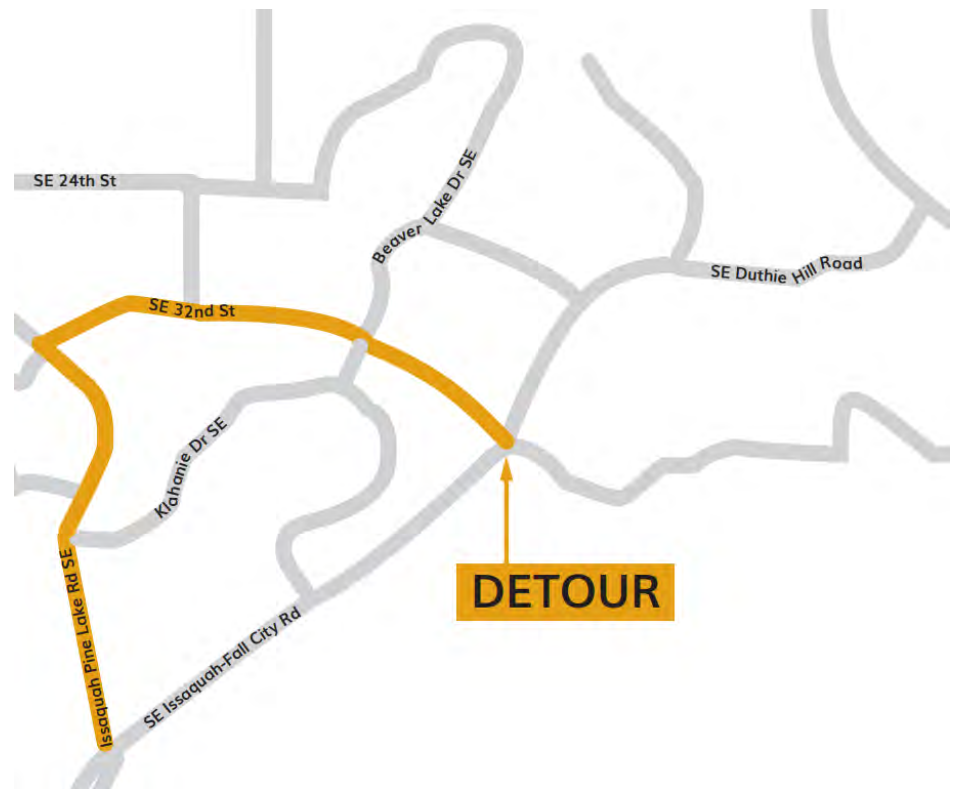

October 26, 2017

Detour and Haul Routes

- During intermittent, short-term closures, traffic will be detoured
- Project haul routes will be in place to:
 - Keep construction traffic off of neighborhood streets
 - Maintain safety throughout the area during construction

October 26, 2017

What's Next

- Share more thoughts online through November 10
- Determine permanent and temporary traffic management solutions based on community feedback
- Hold final design open house early 2018
- Future meetings and notifications prior to start of construction

October 26, 2017

Questions?

October 26, 2017

Workshop Exercise

1. Identify your anticipated areas of concern during construction
2. Prioritize the top three concerns
3. Choose strategies to manage traffic during construction for each priority concern
4. Report out the results of your discussion to the group

Sam Park, Project Manager
