

228th Avenue Overlay Request for Qualifications

Consultant Questions / Answers

Date: September 8, 2021

The City received 1 (one) question about the 228th Avenue Overlay RFQ prior to 4:00pm PDT on September 7, 2021. The consultant question is in **bolded** text and the City's answer follows.

1. **The RFP doesn't indicate if pavement analysis and testing is required. Do you expect the consultant to have a pavement testing/repair recommendation element included in the proposal, or will the City provide that information (as we know the adjacent section of road has been recently overlaid and may have recommendations for this area as well)?**
 - a. It is anticipated that pavement coring and analysis will be completed on the City's end prior to the award of this contract. The City will provide the pavement information and recommendations to the selected consultant.
