## Consultant Questions and City Responses

**RE: Request for Qualifications**

**Construction Management Services  
2022 Capital and Maintenance Programs Projects**

**General Questions:**

Q1. Will density testing be performed under this contract?

**A.1 Density and material testing will be performed under a separate contract and is not included with this request.**

Q2. Will a trailer or office space be provided, or do you want conference and meeting via remote?

**A.2 A trailer or office space will not be provided. We anticipate that this work will be coordinated through field meetings, conferences, and remote communications.**

Q3. The RFQ refers to an Attachment A map, is this missing?

**A.3 This work is at various locations within the City of Sammamish, please disregard the reference to an Attachment A vicinity map.**

Q4. Does the admin need to have vaccinations to be onsite?

**A.4 We currently do not anticipate the need for consultant support to be stationed in a building operated by the city. If a future task order requires this, any COVID protocols in place at the time will need to be followed.**
